

Auctav January Sale

Flat and NH catalogues now online

The two sessions of the Auctav January Sale, dedicated to Flat and National Hunt horses, will be held online on 29 January. Entries remain open, with around a hundred lots already listed in the catalogue.

Flat Sale: Over Twenty Vendors Already Confirmed

Haras de Colleville stands out as the most prolific consignor, offering a wide range of yearlings, two-year-olds, and broodmares. Among these is the first foal out of black-type mare **Miss Louna**, a filly by **Marianafoot**.

Several broodmares are in foal to highly sought-after stallions, such as **Camelot** (for **Sea of Snow**) or **Hello Youmzain** (for **Crime Fighter**), both consigned by **Coulonces Sales**. Other broodmares are in foal to key sires like **Goken** and **Dabirsim**, each responsible for over 60 winners in France in 2024.

A share in **Makaloun**, whose first crop are yearlings in 2024, also features in the catalogue.

NH Sale: A Strong Line-Up of Broodmares

Hamel Stud is among the leading consignors, notably presenting **Fracafigura Has**, a mare who excelled at the highest level in both hurdles and chase, before producing black-type performer **Fraga Has**. Fracafigura Has is in foal to **Jigme**, a young stallion eagerly anticipated in 2024. Also worth noting is a daughter of champion **Roll On Has** and a half-sister to **Roberta Has**, who is in foal to **Moises Has**.

Haras du Haut Chatelier presents **Gaffeuse** (AQPS), a half-sister to **Ubak** and **Rebel Fitz**, in foal to **Cokoriko**—the leading stallion by earnings in 2024 and second by number of wins in France.

Arnaud Angélaume, Auctav General Manager

“This new January session is a real innovation for us, and we’re delighted to have the trust of so many prestigious studs, owners, and breeders. With just two weeks to go before the start of the covering season, this sale is the perfect opportunity to acquire a mare, whether she’s in foal or barren. We can’t wait for the day itself. As it’s our largest online sale, we’ll be introducing a refreshed look, while keeping the interface just as intuitive. No one will lose their bearings, and everything will run even more smoothly.”
